

TAKE EXTRA CARE WITH PEOPLE IN HIGH RISK GROUPS

Dear Valued Customers,

Nothing is more important than the health of our customers and employees. We have already implemented the below measures designed to protect our customers and employees.

- Always wipe down the interior cab area of your truck daily.
- Wear Rubber Gloves in homes and have a face mask with you.
- If residents are sick (any type) wear the face mask in home and notify the customer as to why you are wearing it.
 - *Your next call could be a high-risk customer and we are taking every precaution possible to protect all our customers*
- Maintain a 3 - 6 foot distance with customers as much as possible.
- Avoid contact with pets.
- Always wear a mask when working in the blower compartment on a furnace/air handler and/or changing air filters.
- Have trash bags on your truck for used filters until they can be disposed of. Properly dispose of filters every time you stop at the shop
- Do not touch any non-working surfaces (tables, countertops, etc.).
- Avoid touching face, nose, and eyes.
- Avoid physical contact with clients (handshaking).
- Have a spare uniform in your truck. If you work in a home with sick clients, change to a clean uniform after the call.

If you become sick, feverish, have shortness of breath, or coughing, notify Management immediately so arrangements can be made for time off to make a Dr. appt. to get tested and self-isolate for 14 days, if directed.
